Dear Algene Low,

We would like to express our appreciation to MOFEX for successfully delivering Bonia's 7-day warehouse and office relocation project in January and February 2026.

The scope included the dismantling and reinstallation of over 200 storage racks, relocation of 4 industrial-grade safes, handling of more than 700 boxes, office furniture relocation, as well as post-move reinstatement & handyman services.

The project was well planned and executed, with the MOFEX team demonstrating strong coordination and professionalism throughout the relocation period.

We would like to recognise the active involvement of Algene and Cally in leading and coordinating the relocation works, ensuring smooth execution and minimal disruption to operations, with Haoyang providing on-site support.

We are very satisfied with the services provided by MOFEX and would confidently recommend their team for large-scale warehouse and office relocation projects.

Yours sincerely,

Doris Ho
Office Operations Manager
