5th February 2026

Dear Algene Low,

Thank you for supporting the office relocation works for VITAL from the MOE Building to MND. We were very pleased with how smoothly the move was planned and executed, and the overall coordination met our expectations.

Despite the operational constraints of a government building, the relocation was carried out efficiently and safely, with minimal disruption to our daily operations. The team demonstrated good control on-site and a clear understanding of the working environment.

Algene, Cally, and Haoyang were responsive, proactive, and attentive to on-site requirements throughout the process, which gave us confidence and peace of mind.

We appreciate the professionalism and commitment shown by the MOFEX team and would confidently recommend MOFEX for commercial and institutional relocation projects.

Best regards,
