

WAN HAI LINES LTD.

WE CARRY, WE CARE.

Dear Algene and Haoyang,

We would like to extend our appreciation to MOFEX for the successful execution of Wan Hai Lines' office relocation from 79 Anson Road to Keppel South Central, completed between 25 May and 29 May 2026.

This relocation involved the phased movement of more than 100 users across 3 separate move phases, including over 500 moving cartons, office furniture, workstations, monitors, desktop PCs, and operational equipment. Given the scale of the relocation and coordination required within an active corporate environment, careful planning and execution were essential to ensure minimal disruption to daily operations.

The MOFEX team demonstrated strong project coordination, responsiveness, and professionalism throughout the relocation process. We particularly appreciate the team's ability to remain flexible and solution-oriented while managing scheduling requirements, operational changes, and the overall complexity of the move. Their proactive communication and hands-on coordination gave us confidence throughout the transition.

Overall, we are very satisfied with the relocation services provided by MOFEX and would confidently recommend them for large-scale corporate and office relocation projects.

Sincerely,

Helen Wong
Senior General Manager
